2024-2025

CHILDREN'S POLICY AND LAW INITIATIVE OF INDIANA

Positive School Discipline Institute 2024-2025 Training Options

School Teams Start November 14, 2024

This PSDI Program is funded by
the Indianapolis African American Quality of Life Initiative

WHAT IS THE POSITIVE SCHOOL DISCIPLINE INSTITUTE?

The Positive School Discipline Institute (PSDI) uses a national best practice model, *The Trauma-Informed School*, to implement culturally-responsive, trauma-informed practices in participant schools to transform disciplinary practices. PSDI is a year-long training initiative for schools with a Master Trainer Program (MTP) embedded to reform disciplinary practices and promote student academic success. Our MTP supports a School Trauma Lead Coach for School Teams, who receives additional training and online materials to help a school sustain the work they begin in the first year with the PSDI Initiative.

There are 4 Tracks offered in 2024-2025 which include multiple training options for School Teams, Future Educators, Future Support Staff, Educators and School Personnel, Community and Families.

3

Black males are 3.5x as likely to be suspended as their white counterparts.

60

More than 60% of youth have been exposed to crime, violence, and/or abuse.

70

70% of youth in the juvenile justice system have mental illness or disability.

121,878

out-of-school suspensions in Indiana in 2019.
